

## **PROF BETTIE LODOLO**

### **PROJECT DEVELOPMENT MANAGER: NEXT RENEWABLE GENERATION**

Bettie worked as a microbiologist for SAB optimising fermentations and sustainable brewery hygiene. She received the IBD award for the presentation: “Assuring Brewing Water Hygiene for the Future” based on this work. Her PhD from Maties resulted in the MBAA Presidential award. She was appointed as affiliated Professor at the University of Free State, serves on the editorial board of the ASBC (American Society of Brewing Chemists) and have authored/co-authored 26 papers related to yeast research and brewing science. Bettie holds a MSc in Molecular Genetics (cum laude) as well as a PhD in Microbiology. Prior to joining NrG she was the Central Laboratory Manager for AB-InBev Africa. She is currently a Project Development Manager with NrG.
